Lounge Pass scoops award from TTA Worldchoice

Lounge Pass, the UK's biggest pre-bookable airport lounge service, has been voted "Best Ancillary Products Provider" by travel agency members of the Travel Trust Association / Worldchoice at their overseas conference in Port Aventura, Spain last weekend.

TTA Worldchoice, which represents over 800 independent travel organisations, made the award to Jacqui Bates, Head of Lounge Pass, who said, "We've been working with TTA Worldchoice members for some time, and are thrilled to be voted as the best supplier in our field. We work hard to deliver not only a first class product, but also a superior level of support that enables our agency and operator partners to provide high quality service to their customers".

Lounge Pass allows customers to book access to over 150 airport lounges, including all major UK airports and, uniquely, a wide range of overseas airports. All bookings are fully commissionable to the UK travel trade. An increasing number of agencies and operators are now using Lounge Pass to build in a more relaxed start to a journey for their customers.
